Objectives:

- Globalization — Success and failures in non-US studies
- Regulatory Oversight — Increase in quantity and level of FDA enforcement
- Public Trust — Existing low levels of public trust to be worsened by transparency reports
- Healthcare Delivery — Shift to electronic health records is most relevant that will have effects on data entry, monitoring and Part 11 compliance audits
- Shrinking Revenue to Private Sponsors — Less revenue existing to pharma and device manufacturers and less expected under healthcare reform
- Consolidation & Business Models — Continuance of mergers and acquisitions, role of private equity forms in funding small companies
- Biologics — New FDA pathway for biosimilars and
- the rush to file in this area
