

2015 Academy Milestones Certified Clinical Research Associate (CCRA®)

The Academy congratulates 572 Certified Clinical Research Associates on reaching a 20, 15, 10, or 5 Year milestone in 2015. This is recognition of their continued commitment to human subject protection and quality in clinical trials

A CCRA is a CRA who has met eligibility requirements, demonstrated proficiency of specific knowledge and job-related skills, and passed the standardized ACRP CRA Certification Exam. The CCRA designation formally recognizes a CRA has met the professional standards set forth by the Academy Clinical research Professionals. Each CCRA must meet requirements to maintain the designation every two years.
